SUMMARY OF QUALIFICATIONS

Over seventeen years of professional environmental engineering experience both within the private sector and government service. Responsibilities include managerial, policy and technical roles in resolving and implementing complex technical and regulatory matters.

EXPERIENCE

2000-Present Washington Department of Ecology Central Regional Office, Yakima, WA

Section Manager – Water Quality

Administer/manage the Water Quality Section in Central Regional Office (7 counties) to assure that implementation of water quality laws and regulations including the issuance of state and federal delegated permits, enforcement actions, nonpoint activities and natural resource decisions impacting public, local government, state and federal agencies are consistent with environmental laws, and policies of Washington State. This position manages an organization of approximately 28 employees, including two unit managers.

1998-2000 Washington Department of Ecology Central and Eastern Regional Offices, WA

Section Manager – Shorelands and Environmental Assistance

Administer/manage the Shorelands and Environmental Assistance Section in Eastern & Central Regional Offices (20 counties) to assure that shoreline management, growth management, flood control management and environmental impacts are consistent with environmental laws, and policies of Washington State. This position manages an organization of approximately 15 employees.

1992–1997 Washington Department of Ecology Kennewick, WA

Environmental Specialist 5, RCRA Unit Supervisor

As senior regulatory specialist for Ecology's Nuclear Waste Program, Provided regulatory technical expertise in managing, directing, and negotiating Ecology's interests at U.S. Department of Energy's Hanford Site. Projects include the Spent Nuclear Fuel Project, Tank Waste Remediation System, Facility Transition, Plutonium Disposition and Interstate Technology Regulatory Coordination (ITRC) Policy team leader.

1985–1992 Subsurface Consultants, Inc. Oakland, CA

Senior Geologist

As senior Geologist provided project management for a wide variety of environmental and geotechnical projects. Developed scopes of work, project cost, and directed project management ranging from groundwater remediation projects to overwater drilling platforms, dredging, and construction of buildings, dams and roadways.

EDUCATION

1982–1984 Western Washington University Bellingham, WA

- BS, Environmental Geology

1978–1980 Yakima Valley Community College Yakima, WA

- AA General Sciences

PUBLICATIONS

An Analysis of Performance Based Systems for Encouraging Innovative Environmental Technologies, June 1997, Interstate Technology and Regulatory Cooperation Working Group's Policy Performance Base Systems Team Report.

Compliance Strategies: A Regulator's Viewpoint, Waste Management Symposia, March 1993, Washington Department of Ecology, C.O. Ruud, J.W. Donnelly, L.E. Russell, G. T. Tebb, D.D. Teel.

PROFESSIONAL LICENSES

Licensed Geologist, Washington 2001

Licensed Hydrogeologist, Washington 2001

Licensed Engineering Geologist, Washington 2001

PROFESSIONAL MEMBERSHIPS

American Association of Petroleum Geologist 1982

Association of Engineering Geologist 1989

Geological Society of America 1990

AWARDS RECEIVED

- Nominated for Ecology's Distinguished Manager Award for 2002
- Nuclear Waste Program Service Award for Outstanding Service, March 1994.
- Nuclear Waste Program Manager's Award for Outstanding Service, October 1992.
- Nuclear Waste Program's Outstanding Achievement for a Team, RCRA Unit, October 1992.
